Military School Children in Transition

Issue: Frequent moves = many schools! Also, anxiety of deployment….

Criteria: States participate in an interstate compact providing a uniform policy, at the state and local level, to resolve challenges for military children.

Compact:

- Developed in conjunction with Council of State Governments with assistance of 18 stakeholder agencies
- Compact has the force of law when accepted by state
- Becomes active when accepted by 10 states – *which happened in July*

  - Spouse Employment

In-State Tuition Benefits*

Issue: Frequent moves = out of states rates!

Goal: Allow in-state tuition for Service members and families where assigned, and continue those rates for students following the reassignment of their parents

DSLO actions: Work with legislatures and universities

Outcome: 36 states now meet this criteria and only one state still offers no in-state tuition for military members and their families.

Recent Development* – *New Federal Law: Higher Education Opportunity Act, H.R. 4137, Section 114 – mandates all states provide in-state tuition starting July 2009

Unemployment Compensation

Issue: Spouses who leave a job due to military reassignment do not qualify for UC in many states

Goal: States grant eligibility for much needed financial support when job resignation based on mandated military moves

Outcome: 24 States now grant benefit, over double the number since 2004
